SECTION 2 – SUMMARY AND SPECIFICATIONS

2.1. Summary: Construction of a materials bin with a concrete slab and bin block walls.

2.2. Specifications: The following Special Provisions supplement the “Standard Specifications for Road and Bridge Construction, Adopted April 1, 2016”, the latest edition of the “Manual on Uniform Traffic Control Devices for Streets and Highways”, and the “Manual of Test Procedures for Materials” in effect on the date of invitation for bids, and the “Supplemental Specifications and Recurring Special Provisions” indicated on the Check Sheet included herein, which apply to and govern the construction of the Landscape Recycling Center Materials Bin and in case of conflict with any part, or parts, of said Specifications, the said Special Provisions shall take precedence and shall govern.

2.2.1. Project Description. The proposed materials bin shall consist of a concrete slab-on-grade with concrete bin block walls on three sides of the slab, and the west side of the bin shall be open. When constructed, the materials bin shall have interior plan dimensions measuring 36’ deep (measured perpendicular to the open side) by 24’ wide (measured parallel to the open side), and the outside plan dimensions of the slab shall measure 36’ deep by 24’ wide. A granular subbase shall support the slab and the bin blocks, and the outside plan dimensions of the slab shall measure 38’ deep by 28’ wide. The top of the slab shall be at least 2” above existing grade, and the slab shall have a 0.5% (1/16” per 1’) slope draining toward the west. The final grading along the north, east, and south sides of the materials bin shall match the top of slab and slope down to existing ground to drain away from the bin. The final grading along the west side shall match existing grade or shall be graded as required to accommodate the Scope of Work by Urbana Public Works.

2.2.2. Scope of Work by Urbana Public Works. Urbana Public Works will construct an aggregate surface ramp on the west side of the materials bin.

2.2.3. Preference to Veterans Act. The Contractor shall comply with the “Veterans Preference Act” of the State of Illinois” of the State of Illinois, as amended from time to time, which gives preference to veterans of the United States military and naval service in appointments and employment upon public works by, or for the use of, the State or its political subdivisions (330 ILCS 55/0.01 et seq.) in the employment and appointment to fill positions in the construction, addition to, or alteration of any public works.

2.2.4. Fair Employment Practices Act. Attention of bidders is directed to the provisions of the “Fair Employment Practices Act” of the State of Illinois approved July 1, 1961, as amended from time to time, and particularly the provisions of Section 4 thereof, concerning Public Contracts. The Contract that is to be entered into shall be conditioned as provided by law.

2.2.5. Completion Date. The Contractor shall complete all work by 5:00 PM Central Time on March 11, 2022.

2.2.6. Basis of Payment. The work for this project will be paid for at the contract lump sum price.

2.2.7. Earthwork. Earth Excavation and Embankment shall be according to Sections 202 and 205, respectively. Final Shaping, Trimming, and Finishing shall be according to Section 212.

2.2.8. Granular Subbase. Construct a 4” thick lift of Subbase Granular Material, Type B according to Section 311. The material shall be crushed concrete or crushed slag.

2.2.9. Concrete Slab-on-Grade. Construct an 8” thick, jointed plain concrete slab-on-grade according to Section 423.

2.2.10. Concrete Bin Block Walls. Furnish 42 each concrete interlocking bin blocks, each with nominal dimensions of 2’ by 2’ by 6’ and each weighing at least 3,300 pounds. Install the bin blocks in a stack bond pattern as illustrated below the Project Description.

2.3. Location

2.3.1. Landscape Recycling Center 1210 E. University Avenue Urbana, IL 61802
