Items of Clarification

- 1) **If a firm has a current EEO Certificate with the City of Urbana, can we provide our certificate rather than the EEO forms or are the EEO forms required regardless of having a certificate?**

A firm can provide a valid EEO Certificate in lieu of providing the completed EEO forms, however, should the certificate expire prior to final execution of a formal contract the firm would be required to regain certification before the contract could be executed. If there are any concerns we would suggest completing the EEO forms and submitting them with your submittal which does not count towards the page limit.
