RE: Requested tree removal on Scovill Circle
DATE: October 4, 2022

To whom it may concern,

We respectfully request that the two large trees in front of the residence at 2510 Scovill Circle not be granted permission to be removed, as requested by the owner. They are on City property. Removal will harm the appearance of our tree-lined street and the cul-de-sac, potentially affecting property values. We also request that the Cottonwood and the second tree directly on the cul-de-sac "island" also not be removed.

Thank you.
