
SNOW AND ICE CONTROL 2022-23

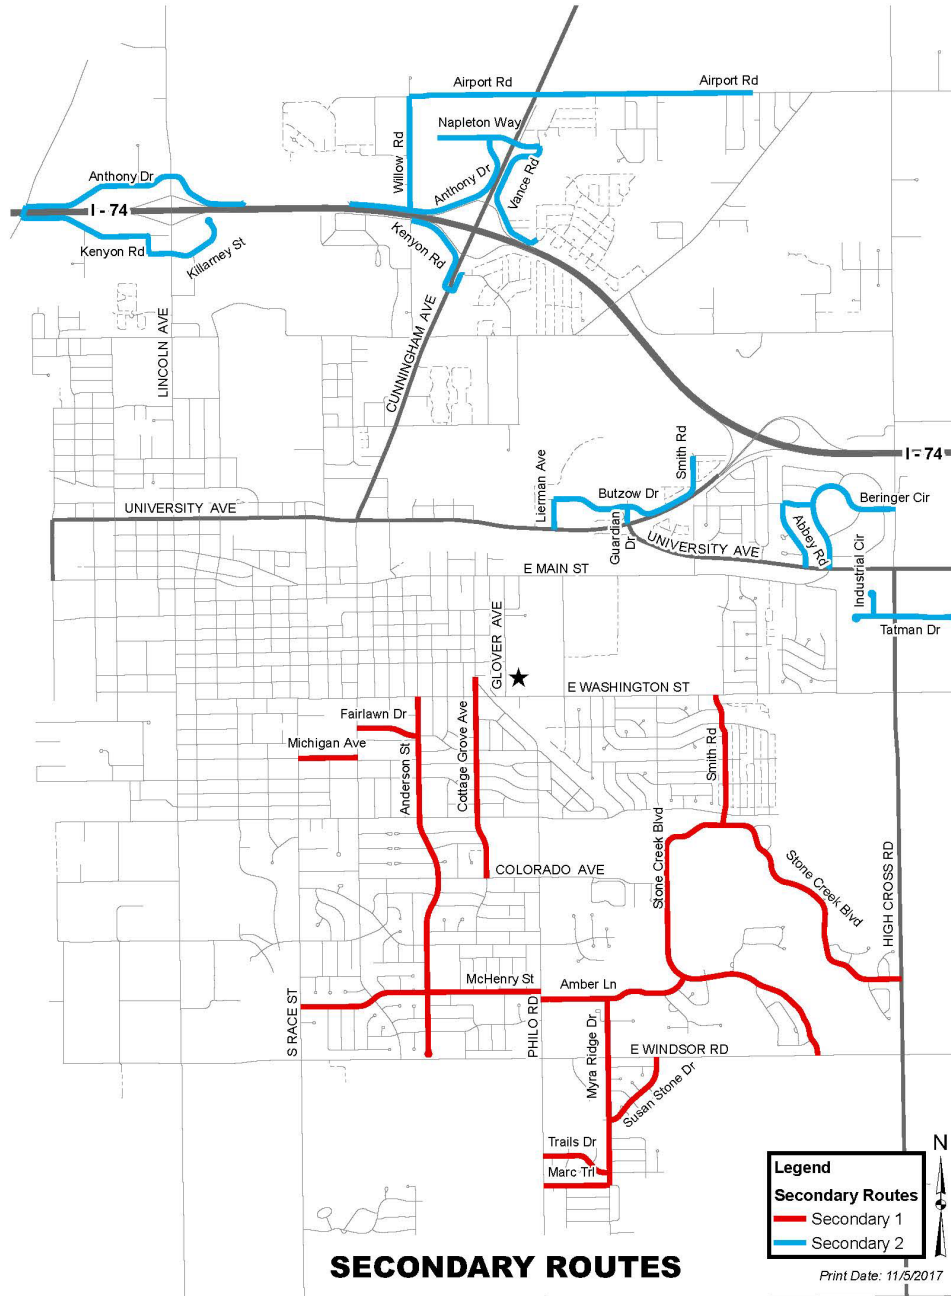

CITY OF
URBANA

SNOW AND ICE REMOVAL

- Activities are dependent on the weather conditions
 - TREATMENT- less than 2 inches of accumulation expected
 - PLOWING- when accumulation exceeds 2 inches
- Roadways are prioritized
 - High-volume arterials
 - Downtown and Philo Road Business Districts, public parking lots
 - Residential areas

SECONDARY ROUTES

Legend

- Secondary 1
- Secondary 2

STATE AND TOWNSHIP ROADS WITHIN THE CITY OF URBANA

IL 130

ROUTE 150

UNIVERSITY AVENUE / US 150

CUNNINGHAM AVENUE / US 45

I-74 RAMPS

EDGEWOOD SUBDIVISION

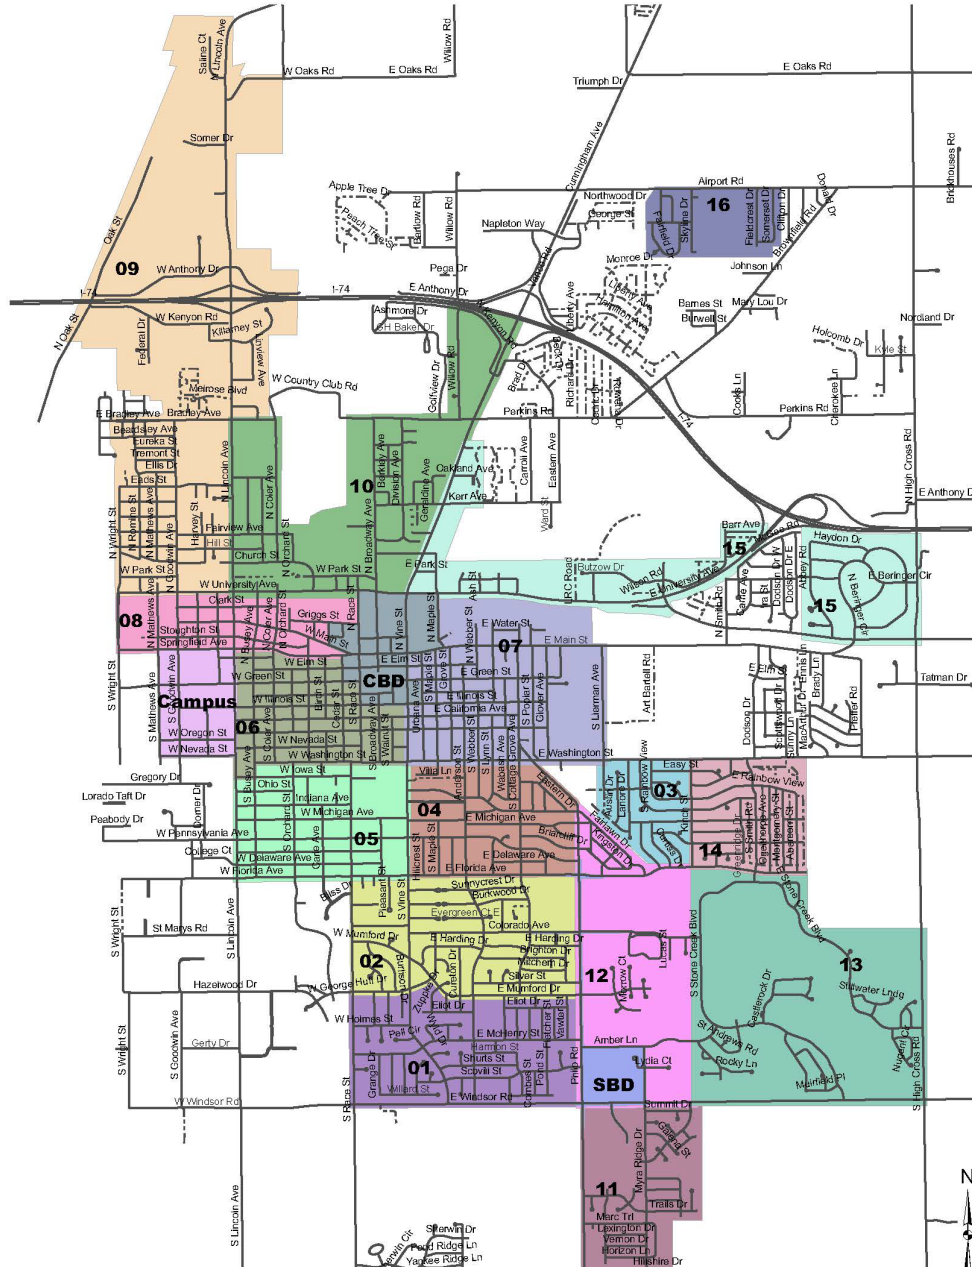

SCOTTSWOOD SUBDIVISION

YANKEE RIDGE SUBDIVISION

These areas are not maintained by Urbana Public Works

RESIDENTIAL AREAS

- The City is divided into 16 residential zones that are cleared on a systematic rotational basis every year.
- Dead-end streets and cul-de-sacs are cleared as equipment becomes available
- Public residential alleys that require access are plowed only after 5 inches of snow has accumulated
- Removing snow from driveways is the responsibility of the resident
- Typically all residential streets will be plowed within 24 hours after the end of the snowstorm

RESIDENTIAL INDEX

SIDEWALKS

- The Public Works Department removes all snow and ice from sidewalks adjacent to City owned buildings and property
- Sidewalks adjacent to private property are the responsibility of the property owner
- The Urbana City Council updated the ordinance in 2019 that requires property owners within identified snow removal districts to clear the adjacent public sidewalk of snow and ice
 - Clearance must occur within 24 hours of a declaration made by the Public Works Director
 - University, South Philo, Downtown Districts
 - Maps and FAQ on City website- [City of Urbana Sidewalk Snow Removal | City of Urbana \(urbanaininois.us\)](https://www.urbanaininois.us/city-services/sidewalk-snow-removal)
 - Enforced by code compliance staff in Community Development Department
