

Make Cardboard Tube Art

Use leaflets and curls made out of toilet paper and paper towel tubes to create wreaths, snowflakes, flowers, and anything else you can think of.

1. Flatten a cardboard tube.
2. Cut the tube into strips, about an inch wide, to make leaves.
3. To make curls, snip the leaf at one corner, then wind the strip around a pencil.
4. Paint your pieces if you like.
5. Glue your pieces one at a time. Use clothespins to hold in place if necessary.
