INDEPENDENT AUDITORS' REPORT

To the Library Board
Urbana Free Library
Urbana, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, the major fund, and the aggregate remaining fund information of the Urbana Free Library, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Urbana Free Library's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Urbana Free Library's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Urbana Free Library's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Library Board
Urbana Free Library

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, the major fund, and the aggregate remaining fund information of the Urbana Free Library as of June 30, 2016 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Urbana Free Library's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Oak Brook, Illinois

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended June 30, 2016 (Unaudited)

The discussion and analysis of Urbana Free Library's (the "Library") financial performance provides an overall review of the Library's financial activities for the year ended June 30, 2016. The management of the Library encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the Library's financial performance. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

Financial Highlights

- The assets of the Library exceeded its liabilities/deferred inflows of resources at the close of the most recent fiscal year by \$10,780,358 (net position). Of this amount \$1,474,314 is unrestricted and may be used to meet the government's ongoing obligation to citizens and creditors.
- In total, net position decreased by \$4,651.
- As of the close of the current fiscal year, the Library's governmental funds reported combined ending fund balances of \$1,919,486, an increase of \$173,714 in comparison with the prior year. Approximately \$1,634,543 is available for spending at the government's discretion (unassigned fund balance).
- General revenues accounted for \$3,146,038 in revenue or 93% of all governmental revenues. Program specific revenues in the form of charges for services and fees and grants accounted for \$251,787 or 7% of total governmental revenues of \$3,397,825.
- The Library had \$3,402,476 in expenses related to government activities. However, only \$251,787 of these expenses were offset by program specific charges and grants.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,650,277, or 52% of the total General Fund expenditures. Funds for the 11-year accrual, for Building, Capital Expense, and the Health Savings Plan payout which the Library is obligated to pay are included here. Since most of the Library's revenue is property taxes and since most of the property taxes for one fiscal year come in during June, the last month of the fiscal year, it is imperative for the Library to have a healthy fund balance for cash flow purposes.
- In addition, according to the Library's Five-Year Financial Plan, FY2014-FY2018, capital investments in the air handler, boiler, front porch and windows, could cost hundreds of thousands of dollars, for which the Library should have an adequate fund balance.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended June 30, 2016 (Unaudited)

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Library's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances, in a manner similar to a private-sector business, and are reported using the accrual basis of accounting and economic resources measurement focus.

The statement of net position presents information on all of the Library's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be divided into two types of activities: governmental and business type. Governmental activities present the functions of the Library that are principally supported by taxes and intergovernmental revenues. The Library's governmental activities include library operational services. The Library has no business type activities.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Library can be divided into one category: governmental funds.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended June 30, 2016 (Unaudited)

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements and are reported using the modified accrual basis of accounting and current financial resources measurement focus. The governmental fund statements provide a detailed short-term view of the Library's general government operations and the basic services it provides. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources; as well as, on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Library maintains 1 major individual governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining schedules elsewhere in this report. The Library adopts an annual budget for the major fund listed above. A budgetary comparison statement has been provided for the major fund to demonstrate compliance with this budget.

Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's Illinois Municipal Retirement Fund; as well as, budget to actual comparisons of the funds for which a budget has been adopted. Supplementary schedules include combining and individual fund schedules of all non-major funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2016
(Unaudited)

Government-Wide Financial Analysis

Table 1 Condensed Statements of Net Position (in actual dollars)			
	<i>Governmental Activities</i>		
	2016	2015	Change
Assets			
Current and other assets	\$ 3,217,013	\$ 3,037,136	5.9%
Capital assets	9,081,257	9,291,248	(2.3)%
Total assets	12,298,270	12,328,384	(0.2)%
Liabilities			
Long-term liabilities	220,385	252,011	(12.5)%
Other liabilities	99,993	123,800	(19.2)%
Total liabilities	320,378	375,811	(14.8)%
Deferred Inflows of Resources			
Property taxes levied for a future period	1,197,534	1,167,564	2.6%
Total deferred inflows of resources	1,197,534	1,167,564	2.6%
Net position			
Net investment in capital assets	9,081,257	9,291,248	(2.3)%
Restricted	224,787	217,863	3.2%
Unrestricted	1,474,314	1,275,898	15.6%
Total net position	\$ 10,780,358	\$ 10,785,009	

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net results of activities – which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for capital – which will increase current assets and long-term debt.

Spending borrowed proceeds on new capital – which will: (a) reduce current assets and increase capital assets; and, (b) increase capital assets and long-term debt, which will not change the net investment in capital assets.

Spending of non-borrowed current assets on new capital – which will: (a) reduce current assets and increase capital assets; and, (b) will reduce unrestricted net position and increase the net investment in capital assets.

Principal payment on debt – which will: (a) reduce current assets and reduce long-term debt; and, (b) reduce unrestricted net position and increase the net investment in capital assets.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2016
(Unaudited)

Reduction of capital assets through depreciation – which will reduce capital assets and net investment in capital assets.

Current Year Impacts

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Library, total net position decreased by \$4,651 from \$10,785,009 to \$10,780,358. The Library's total assets equal \$12,298,270. The Library's total liabilities/deferred inflows of resources equal \$1,517,912.

A portion of the net position of the governmental activities is restricted for trusts. The unrestricted balance of \$1,474,314 may be used to meet the ongoing Library obligations to their citizens and creditors. All net position categories show positive balances at year end.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended June 30, 2016 (Unaudited)

Normal Impacts

There are eight basic (normal) impacts that will affect the comparability of the revenues and expenses on the Statement of Activities summary presentation.

Revenues

Economic condition – which can reflect a declining, stable or growing economic environment, and has substantial impact on state sales, replacement and hotel/motel tax revenue; as well as, public spending habits for building permits, elective user fees, and volumes of consumption.

Increase/decrease in Library approved rates – while certain tax rates are set by statute, the Library has significant authority to impose and periodically increase/decrease rates.

Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring grants are less predictable and often distorting in their impact on year to year comparisons.

Market impacts on investment income – the Library's investments may be affected by market conditions causing investment income to increase/decrease.

Expenses

Introduction of new programs – within the functional expense categories (centralized costs, administration, adult department, etc.), individual programs may be added or deleted to meet changing community needs.

Change in authorized personnel – changes in service demand may cause the Library to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent the largest operating cost of the Library.

Salary increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the Library to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the Library is a major consumer of certain commodities such as supplies. Some functions may experience unusual commodity specific increases.

Current Year Impacts

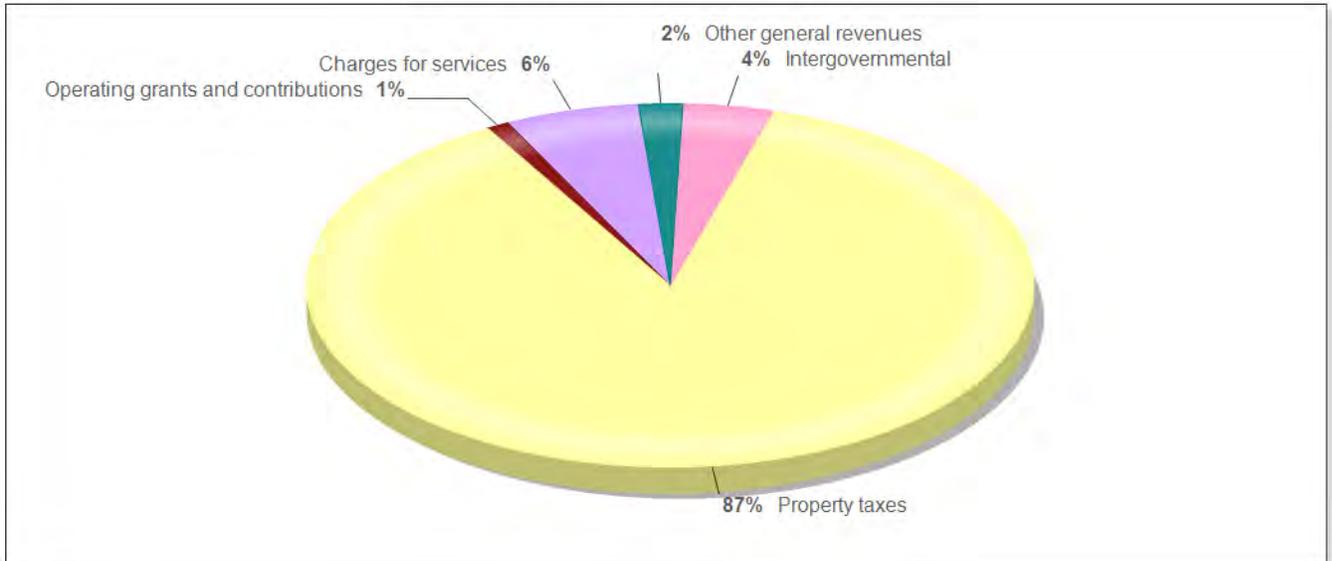

Budgeted property tax revenue increased approximately \$50,533. Payments to retirees for their RHS payouts were taken from the RHS Plan Fund Balance. The Library's net position decreased, due primarily to normal depreciation and recognition of the liability of compensated absences which had not been recognized before.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2016
(Unaudited)

Governmental Activities

Governmental Revenues by Source

Revenues

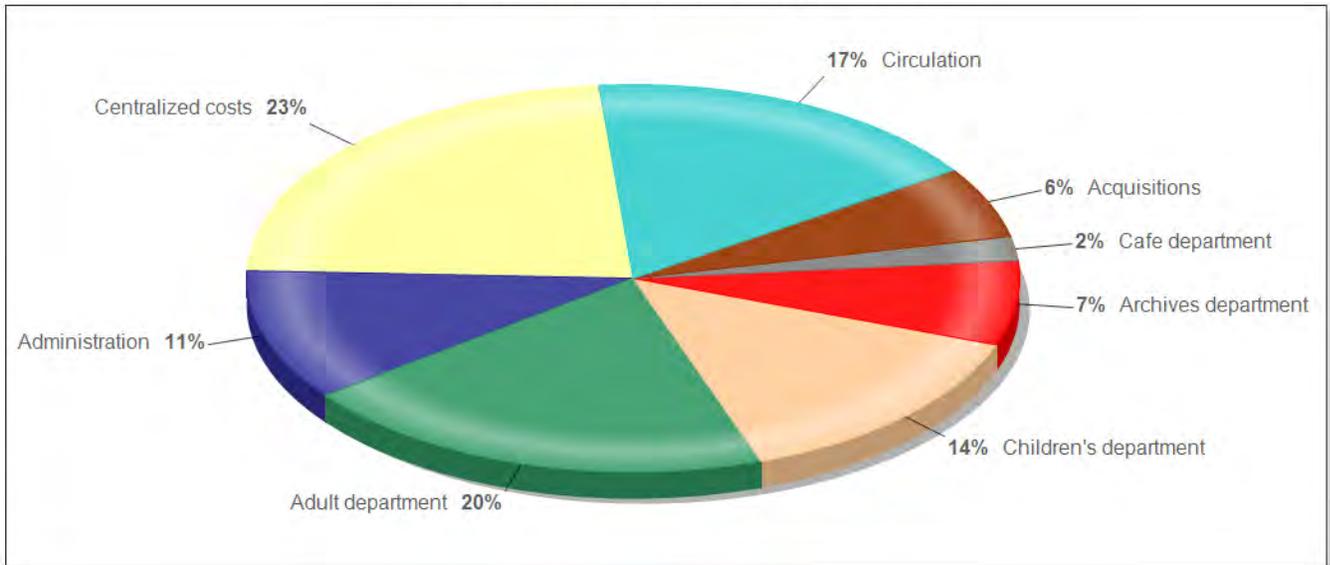

The largest revenue source for the Library is property tax. In FY16, the Library recognized three new revenue and expense lines which increase the FY16 budget. The City's contribution to the Library's FICA, IMRF and Ameren Illinois utility payments (as recognized in the Library's Budget & Forecast report) total almost \$400,000, but associated expenses are also now recognized. If you remove this additional revenue from the total revenue, the Library's total revenue is around 5% lower than it was in FY13. In addition, the State Per Capita funding hasn't been this low since FY2013. Revenues for Fines and Fees may continue to decrease as Library Circulation policies change to the benefit of patrons and as more people check out ebooks, which accrue no fines. Fines and Fees revenue is down by 7% since FY13. In response to these factors, new sources of revenue and budgeting will continue to be explored and implemented.

The Champaign County Circuit Clerk's Office now pays \$13,500 a year for document storage at the Champaign County Historical Archives at The Urbana Free Library, an arrangement which will be evaluated yearly.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2016
(Unaudited)

Governmental Expenses by Function

Expenses

The L05 General Fund materials budgets were supplemented by funds from the L10 Friends of The Urbana Free Library book sales funds. This is not sustainable, and Illinois Public Library standards state that, "The library spends a minimum of 12 percent of its operating budget on materials for patrons." After the departure of one employee, two departments were merged underneath one Director. Both of these situations resulted cost savings. The retirement of two long-term employees caused payouts of RHS funds from the Fund Balance. The Library took responsibility for paying some utilities directly instead of the City paying them and billing the Library. In FY15, the City billed the Library for 10 payments instead of twelve. In FY16, the Library and the City caught up, with the Library making 14 payments..

Financial Analysis of the Library's Funds

There was a small decrease to the Fund Balance in RHS Plan transfers for employees who separated from the Library. The Library will continue to proactively set aside funds for building and IT capital expenses, as well as funds for payroll 11-year accrual and RHS separation payouts.

General Fund Budgetary Highlights

General Fund revenues of \$3,367,919 were below budget by \$406,091. Expenditures were \$537,394 below budget.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended June 30, 2016 (Unaudited)

Capital Assets

By the end of 2016, the Library had compiled a total investment of \$11,696,334 (\$9,081,257 net of accumulated depreciation) in a broad range of capital assets including land, buildings, and equipment. Total depreciation expense for the year was \$209,991. More detailed information about capital assets can be found in Note III.C of the basic financial statements.

Table 3			
Capital Assets (net of depreciation)			
(in actual dollars)			
	<i>Governmental Activities</i>		
	2016	2015	Change
Land	\$ 480,732	\$ 480,732	
Buildings and improvements	8,330,317	8,486,529	-1.8%
Equipment	<u>270,208</u>	<u>323,987</u>	-16.6%
Total	<u>\$ 9,081,257</u>	<u>\$ 9,291,248</u>	-2.3%

Factors Bearing on the Library's Future

The City of Urbana notes that The Appellate Court ruled the State law which grants hospitals property tax relief in exchange for "charity care" unconstitutional. However, the City has yet to see additional revenue from these properties because this decision was appealed to the State Supreme Court. The City will continue to aggressively pursue this issue. This law has had a significant adverse impact on the City of Urbana, which is home to two regional hospitals. The largest, Carle, serves a region of 1.2 million people in 25 counties in Illinois and Indiana. Urbana, with a population of 41,250 accounts for 3% of the region's population. However, 83% of Carle's property is located in Urbana, which means that 3% of the population is shouldering 83% of the tax loss. Before the exemption, Carle accounted for 11% of the City's assessed value. The result is a shift in the overall tax burden to other taxpayers, which has driven the tax rate 25% above the adjacent City of Champaign, putting Urbana at a competitive disadvantage. This situation is not sustainable for the City.

The State of Illinois did not approve a budget until the very end of FY16. Public libraries did not receive the \$1.25 anticipated per capita funding but received \$.77 per capita, which was an approximately \$20,000 decrease in anticipated TUFL revenue. The State's budget crisis also has the potential to have a significant impact on the City's finances. The potential for a reduction in State-shared revenues or new limitations on the ability of local governments to raise revenues as the State struggles to balance its budget is concerning. Any move by the State that reduced local government revenues would be a significant hardship at a time when the City is already struggling to deal with the decline in assessed value resulting from the hospital property tax exemption.

URBANA FREE LIBRARY

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended June 30, 2016 (Unaudited)

Any reductions in State funding for the University of Illinois, which is a significant driver for the local economy, would also have a significant impact on the City. Depending on the magnitude of reductions, there could be wide ranging impacts on the local economy, affecting sales taxes and other City revenues.

In FY16, the amount patron-initiated circulation surpassed the amount staff-initiated circulation by over 27,000. As patrons continue the trend of increasing their use of selfcheck stations, renewing items themselves, and checking out eBooks, implications for necessary staffing levels will continue to be considered. Budgeting for sustainability will be key to the Library's continued success in a time of more limited resources. Hiring a development director in 2017 with funds from the City is one way the City and Library are collaborating to provide financial sustainability creatively and responsibly.

In FY16, the Library showed the City's contribution to the Library for FICA, IMRF and natural gas payments in the Library's budget for the first time. This will increase the Library's overall revenue, therefore increasing the amount of money that the Library should be spending on materials, as stated in the Standards for Illinois Public Libraries.

Large capital expenses are a concern. Aging infrastructure, including windows in the historic 1918 section of the building, an aging porch, and an aging air handler and boiler have been identified in the Financial Plan FY2014-2018 as having the potential to cost hundreds of thousands of dollars to replace/repair. An HVAC evaluation performed in 2016 estimates over \$324,000 in repair and replacement for the aging HVAC components needed over the next two years and an additional \$284,000 within 10 years. Saving for capital improvements has begun, and the Library Foundation is fundraising, as well. In addition, an equipment replacement fund for long-term, large expenses that cannot be met by the annual budget allocation was added to the FY17 budget in response to a FY2016-FY2018 Technology Plan recommendation.

Requests for Information

This financial report is designed to provide the Library's citizens, taxpayers, and creditors with a general overview of the Library's finances and to demonstrate the Library's accountability for the money it receives. If you have questions about this report, need additional financial information, or would like a copy of the financial statements for the Urbana Free Library, contact the Business Office:

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Urbana Free Library (the Library) was founded in 1874 and provides a broad range of library services, including adult and children's departments and The Champaign County Historical Archives. The Board of Trustees of The Urbana Free Library is responsible for the overall operations and service of the Library, including budget, policy, and planning. Trustees are appointed by the Mayor and are confirmed by the City Council. All Trustees serve 3-year alternating terms. The City Council of the City of Urbana is the authority for levying the annual property tax. The Library is a discretely presented component unit of the City of Urbana, Illinois (the City) pursuant to GASB Statement No. 61, since the City is financially accountable for the Library. In prior years, the Library was presented as a special revenue fund of the City.

The accounting policies of the Library conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the Library. The reporting entity for the Library consists of the primary government and its component unit. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

Component units are reported using one of two methods, discrete presentation or blending. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens, or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Discretely Presented Component Unit

Library Foundation

The government-wide financial statements include the Library Foundation (Foundation) as a component unit. The Foundation is a legally separate organization. The economic resources received and held by the Foundation are entirely for the direct benefit of the Urbana Free Library. See Note III.F. As a component unit, the Foundation's financial statements have been presented as a discrete column in the financial statements. The information presented is for the fiscal year ended June 30, 2016. The Foundation does not issue separate financial statements.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Library does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund equity, revenues, and expenditures/expenses.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

Funds are organized as major funds or nonmajor funds within the governmental statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the Library or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental fund that met the 10% test is at least 5% of the corresponding total for all governmental funds combined.
- c. In addition, any other governmental fund that the Library believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Library reports the following major governmental fund:

General Fund - accounts for the Library's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.

The Library reports the following nonmajor governmental funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Publication Fund
Trust Fund

Grant Fund
Buildings Fund

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and unearned revenue. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Library considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Intergovernmental aids and grants are recognized as revenues in the period the Library is entitled the resources and the amounts are available. Amounts owed to the Library which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, and interest. Other general revenues such as fines and forfeitures, library fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

Illinois Statutes authorize the Library to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

The Library has adopted investment policies. That policy follows the state statute for allowable investments.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Credit Risk

State Statutes limit the investments in commercial paper to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). The Library's investment policy authorizes investments in any type of security allowed for in Illinois statutes regarding the investment of public funds.

Concentration of Credit Risk

Concentration of credit risk is the risk that the Library has a high percentage of its investments invested in one type of investment.

Custodial Credit Risk - Deposits

Custodial credit risk for deposits with financial institutions is the risk that in the event of the failure of the counterparty to the investment, the Library will not be able to recover the value of its investments that are in possession of an outside party. The Library's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by an independent third party custodian, in the name of the Library.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Library will not be able to recover the value of its investments that are in possession of an outside party. The Library's investment policy requires all securities to be held by a third party custodian designated by the Library Director and evidenced by safekeeping receipts and a written custodial agreement.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated to the general fund. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which the investments could be sold.

See Note III. A. for further information.

2. Receivables

Property taxes for levy year 2015 attaches as an enforceable lien on January 1, 2015, on property values assessed as of the same date. Taxes are levied by December following the lien date (by passage of a Tax Levy Ordinance). The 2016 tax levy, which attached as an enforceable lien on the property as of January 1, 2016, has not been recorded as a receivable as of June 30, 2016, as the tax has not yet been levied by the Library and will not be levied until December 2016, and therefore, the levy is not measurable at June 30, 2016.

Tax bills for levy year 2015 are prepared by Champaign County and issued on or about May 1, 2016 and August 1, 2016, and are payable in two installments, on or about June 1, 2016 and September 1, 2016 or within 30 days of the tax bills being issued.

The county collects such taxes and remits them periodically. The 2015 property tax levy is recognized as a receivable and a deferred inflow of resources in fiscal 2016. As the taxes become available to finance current expenditures, they are recognized as revenues. At June 30, 2016, the property taxes receivable and a deferred inflow of resources consisted of the estimated amount collectible from the 2015 levy.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

2. Receivables (cont.)

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Interfund loans are reported as "due to and from other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The remainder, if generated from earnings, is shown as restricted net position.

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of 2 years. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	75 Years
Office furniture	10 - 25 Years
Equipment	5 - 7 Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

6. *Compensated Absences*

Library employees are granted vacation pay and sick leave in various amounts. Sick leave and vacation benefits may be accumulated to maximums designated by Library policy. Additionally, at separation, 20% of the employee's accumulated and unused sick leave will be contributed to the employee's retirement health savings account. Such amounts are accrued when incurred in the government-wide statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. In prior years, the General Fund has been used to liquidate the accumulated absences for governmental funds.

Payments for vacation will be made at rates in effect when the benefits are used. Accumulated vacation liabilities at June 30, 2016, are determined on the basis of current salary rates and include salary related payments.

7. *Long-Term Obligations*

All long-term obligations to be repaid from governmental resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of accrued compensated absences and other postemployment benefits.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts is reported as an other financing source and payments of principal and interest are reported as expenditures.

8. *Deferred Inflows of Resources*

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

9. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Library's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund equity is classified as fund balance and displayed as follows:

- a. Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the Library Board. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Library Board that originally created the commitment.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

9. Equity Classifications (cont.)

Fund Statements (cont.)

- d. Assigned - Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned through the following; 1) The Board may take official action to assign amounts. 2) All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed. Assignments may take place after the end of the reporting period.
- e. Unassigned - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

The Library considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Library would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of June 30, 2016, the following individual fund held a deficit balance:

Fund	Amount
Buildings	\$ (15,734)

This fund deficit will be funded with future rental revenues.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended June 30, 2016

NOTE III - DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The Library maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position and balance sheet as cash and investments. In addition, investments are separately held by several of the Library's funds.

The Library's deposits and investments at year end were comprised of the following:

	Carrying Value	Statement Balances	Associated Risks
Deposits	\$ 1,738,310	\$ 1,784,347	Custodial credit risk - deposits
Illinois Funds	29,826	29,832	Credit risk
Petty cash	516	-	N/A
Total Deposits and Investments	<u>\$ 1,768,652</u>	<u>\$ 1,814,179</u>	
Reconciliation to financial statements			
Per statement of net position			
Unrestricted cash and investments	\$ 1,543,865		
Restricted cash and investments	224,787		
Total Deposits and Investments	<u>\$ 1,768,652</u>		

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the Library's deposits may not be returned to the Library.

The Library does not have any deposits exposed to custodial credit risk.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Custodial Credit Risk (cont.)

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Library does not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of June 30, 2016, the Library's investments were rated as follows:

<u>Investment Type</u>	<u>Standard & Poors</u>
Illinois Funds	AAAm

See Note I.D.1. for further information on deposit and investment policies.

B. RECEIVABLES

All of the receivables on the balance sheet are expected to be collected within one year.

D. INTERFUND RECEIVABLES/PAYABLES

The following is a schedule of interfund receivables and payables including any overdrafts on pooled cash and investment accounts:

Receivable Fund	Payable Fund	Amount
General Fund	Grant Fund	\$ 1,800
General Fund	Building Fund	<u>15,734</u>
Total - Fund Financial Statements		17,534
Less: Government-wide eliminations		<u>(17,534)</u>
Total Internal Balances - Government-Wide Statement of Net Position		<u><u>\$ -</u></u>

All amounts are due within one year.

E. LONG-TERM OBLIGATIONS

Long-term obligations activity for the year ended June 30, 2016, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental Activities					
Other Liabilities					
Compensated absences	\$ 231,700	\$ 43,019	\$ 78,046	\$ 196,673	\$ 196,673
Net other postemployment benefits obligation	<u>20,311</u>	<u>6,228</u>	<u>2,827</u>	<u>23,712</u>	<u>-</u>
Total Other Liabilities	<u>252,011</u>	<u>49,247</u>	<u>80,873</u>	<u>220,385</u>	<u>196,673</u>
Total Governmental Activities Long-Term Liabilities	<u><u>\$ 252,011</u></u>	<u><u>\$ 49,247</u></u>	<u><u>\$ 80,873</u></u>	<u><u>\$ 220,385</u></u>	<u><u>\$ 196,673</u></u>

Compensated absences and the other postemployment benefits obligation are paid out of the General Fund.

Totals	<u>\$ 75,000</u>	<u>\$ 11,250</u>	<u>\$ 86,250</u>

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

Plan Descriptions

The Library participates in one defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system. The benefits, benefits levels, employee contributions and employer contributions for the plan are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Illinois Municipal Retirement Fund

The City's defined benefit pension plan, Illinois Municipal Retirement (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a financial report that includes financial statements and required supplementary information. That report may be obtained at www.imrf.org/pubs/pubs_homepage.htm or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook Illinois 60523.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. Effective January 1, 2011, IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For *Regular Tier 1*, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1 2/3% of their final rate (average of the highest 48 consecutive months earnings during the last 10 years) of earnings for each year of credited service up to 15 years and 2% for each year thereafter. For *Regular Tier 2*, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service, or age 62 with 35 years of service are entitled to an annual retirement benefit as described above. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The Library's contribution rate for 2015 was 12.70% of annual covered payroll. For 2015, the annual required contribution rate was 12.70%. The Library's contributions were paid by the City on behalf of the Library.

The employees of the Library are pooled with the employees of the City of Urbana for purposes of the actuarial valuation. Therefore, the amount of accumulated retirement liability and normal costs related specifically to Library personnel is not available. As the City of Urbana pays the employer contribution for eligible Library employees, the net pension liability resides with the City. As such, a net pension liability is not recorded by the Library.

B. RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; and natural disasters for which the Library carries commercial insurance. No claims have ever exceeded the amount of insurance coverage.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE IV - OTHER INFORMATION (cont.)

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

From time to time, the Library is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Library attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Library's financial position or results of operations.

D. OTHER POSTEMPLOYMENT BENEFITS

The Library participates in a multiple-employer defined benefit healthcare plan ("the Retiree Health Insurance Plan") administered by the City of Urbana. The plan provides pre and post-Medicare postretirement health insurance for eligible retirees, their spouses, and dependents (enrolled at time of employee's retirement) through the Library's group health insurance plan, which covers both active and retired members. Benefit provisions are established through the Library's policies and handbook and state that eligible retirees and their spouses and dependents receive healthcare insurance at the blended premium rate. The Retiree Health Insurance Plan does not issue a publicly available financial report.

Contribution requirements are governed by the Library and can be amended by the Library through its handbook. For fiscal year 2016, the Library contributed \$2,827 to the plan.

The Library's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Library's annual OPEB cost for the year, the amount actually contributed to plan, and changes in the Library's net OPEB obligation to the Retiree Health Insurance Plan:

Annual required contribution	\$	6,227
Interest on net OPEB obligation		-
Adjustment to annual required contribution		<u>-</u>
Annual OPEB cost		6,228
Contributions made		<u>(2,827)</u>
Increase in net OPEB obligation		3,401
Net OPEB Obligation - Beginning of Year		<u>20,311</u>
Net OPEB Obligation - End of Year	\$	<u><u>23,712</u></u>

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE IV - OTHER INFORMATION (cont.)

D. OTHER POSTEMPLOYMENT BENEFITS (cont.)

The Library's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2014	\$ 4,477	70%	\$ 16,911
June 30, 2015	6,227	45%	20,311
June 30, 2016	6,228	45%	23,712

The funded status of the plan as of June 30, 2013, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$	82,665
Actuarial value of plan assets		-
Unfunded Actuarial Accrued Liability (UAAL)	\$	<u>82,665</u>
Funded ratio (actuarial value of plan assets/AAL)		-%
Covered payroll (active plan members)	\$	1,123,355
UAAL as a percentage of covered payroll		7%

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

URBANA FREE LIBRARY

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended June 30, 2016

NOTE IV - OTHER INFORMATION (cont.)

D. OTHER POSTEMPLOYMENT BENEFITS (cont.)

In the June 30, 2013 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions include a 4% investment rate of return and an annual healthcare cost trend rate of 8% initially, reduced by decrements to an ultimate rate of 6% after 4 years. Both rates include a 3% inflation assumption. The actuarial value of Retiree Health Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a three-year period. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at June 30, 2016, was 30 years.

E. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*
- Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*
- Statement No. 77, *Tax Abatement Disclosures*
- Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*
- Statement No. 79, *Certain External Investment Pools and Pool Participants*
- Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*
- Statement No. 81, *Irrevocable Split-Interest Agreements*
- Statement No. 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73*

When they become effective, application of these standards may restate portions of these financial statements.

URBANA FREE LIBRARY

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2016

BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. Budget amounts are as originally adopted by the Board of Trustees. General Fund annual appropriations lapse at fiscal year end.

Prior to June 30, the Library Executive Director submits to the Library Board a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to September 30, the budget is legally enacted through passage of an ordinance at the City level.

The Library is authorized to change budgeted amounts within any fund; however, revision must be approved by two-thirds of the members of the Library Board. No revisions can be made increasing the budget unless funding is available for the purpose of the revision. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The appropriated budget is prepared by fund, function, and department. The Library is authorized to transfer budget amounts between departments within any fund; however, the Library Board must approve revisions that alter the total expenditures of any fund.

Budgets were not proposed for the Grant Fund, Trust Fund, Building Fund, and Publications Fund.
