September 26, 1999

TO: Members, Urbana Firemen's Pension Fund

FROM: Ronald Eldridge, Treasurer Rom Eldidge

Attached please find the annual financial report and audit for the Firemen's Pension Fund for the fiscal year ended June 30, 1999. Some important points of the audit are:

- 1) The financial statements have been prepared in accordance with generally accepted accounting principles ("clean opinion"). The auditor's opinion letter on this finding is on page 1.
- 2) In performing their work, the auditors did not discover any significant weaknesses in the fund's internal accounting controls. It is the policy of the auditor that no separate letter is issued in this circumstance.
- 3) Net worth of the fund has grown to \$20,403,395, up \$862,917 from last year. If you factor out unrealized gains in investments which cause income to fluctuate wildly, this growth is very similar to the last 2 years.
- 4) The city's contribution was based upon an actuarial study performed by the actuarial firm of Tim Sharpe. The amount required to be contributed was \$380,367. The amount actually contributed was \$394,706. The fund is at a 97.4% funding level. Ten years ago, this funding level was 78% and 87% 5 years ago.
- 5) A review of the makeup of the investment portfolio shows that historically 98-99% of the funds are invested in longer term and higher interest earning accounts. The investment in mutual funds was first authorized in January 1998 and the fund is income averaging this investment over 24 months (35% level will probably be reached in approximately spring of 2000). Over the past 10 years, the fund has significantly shifted investments in certificates of deposit to U.S. government and equities:

	Percent of Portfolio				
	99	<u>98</u>	<u>97</u>	96	<u>89</u>
U.S. Government	66	73	80	80	19
Cert. Of Deposit	2	5	6	6	78
Insurance Annuities	11	15	13	12	1
Savings/Checking	1	2	1	2	2
Mutual Funds	20	5	0	0	0

- 6) The average weighted length of maturity on fixed income investments is approximately 6.25 years for U.S. Government Securities and 1-2 years for certificates of deposit. Traditionally, the longer maturity period, the higher the return. However, for the last 2-3 years, this differential return has been significantly smaller and leveled out at approximately 7 years.
- 7) A breakdown of the investment return by investment type follows:

		\$	9	% Return
	<u> 1999</u>	<u>1998</u>	<u> 1999</u>	<u>1998</u>
Savings/Money Markets	12,960	17,382	4.7%	4.8%
Cert. Of Deposit	43,968	64,911	6.0	6.0
U.S. Government	998,953	1,020,293	8.3	8.3
Subtotal	1,055,881	1,102,586	8.1	8.1
Gain Call U.S. Govt.	0	28,750	n/a	n/a
Loss Ins. Contract	(83,135)	0	n/a	n/a
Subtotal, Realized	972,746	1,131,336	7.5	8.3
Unrealized Market Gains	:			
Insurance Annuities *	293,443	562,205	10.4	22.1
Mutual Funds * @	577,912	38,279	18.7	9.9
Subtotal	1,844,101	1,731,820	11.5	12.7
Unrealized Gain (Loss)				
On U.S. Govt.	(565,763)	559,608	n/a	n/a
Total	1,278,338	2,291,428	8.0	16.8

^{*}Net of all fees, @ including dividends

8) A historical review of investment return shows that over the last 5 years, the fund has historically averaged approximately an 8.0% to 8.5% return before equities. The fund has been able to increase the total return to approximately 13% by investing in equity securities (insurance annuities and mutual funds beginning in 98):

	<u>1999</u>	<u>1998</u>	<u>1997</u>	Last <u>3 Yrs</u>	Last <u>5 Yrs</u>	Last 10 Yrs
Return Before Equities Total Return	7.5% 11.5%	8.3% 12.7%		8.0% 12.0%		8.3% 9.9%

9) The cost of benefit increases are expected to increase over time. Most members drawing benefits by law receive a 3% annually compounded increase in addition to increases in the number of retirees and the increased salaries at retirement that these benefits are based on. An examination of the total amount paid out for benefits shows the following increases over last year and the last 10 years:

	1999_	1998	<u> 1997</u>	<u>1989</u>
Disability	\$140,604	\$139,469	\$136,767	\$ 61,260
Service	743,146	681,029	629,541	140,043
Dependent	74,546	68,952	58,345	43,984
Total	\$958,296	\$889,450	\$824.653	\$245,287

10) An examination of the number and make up of members receiving benefits provides insight into certain trends and changes affecting previous and future pension costs:

		Dis	ability			Serv	rice			Dependent	
		Ave.	Serv.	Ave.		Ave.	Serv	. Ave.		Ave. Ave	Э.
	<u>#</u>	<u>Age</u>	<u>Yrs</u>	<u>Ben.</u>	#	<u>Age</u>	<u>Yrs</u>	<u>Ben</u> .	#	<u>Age Ben</u>	
1000	10	62	16	¢1 270	29	58	22	\$2,204	7	71 \$87	Ω
1999	10	63	16	\$1,278		56	23		1	•	
1998	10	59	16	\$1,161	28	57	23	\$2,055	8	74 \$75	8
1997	11	59	16		29	56	23		6	74	
1996	11	59	16		26	57	25		6	73	
1992	9	58	14		14	60	22		7	73	
1987	8	59	14		7	60	23		6	66	

- 11) The only change in 1999 affecting disability pensioners is one member on disability pension died (Harvey) and one new pension was awarded (Johnson), the result is the same number of pensioners as last year 10. The number is up from 8 in 1987. The make up of the disability pensioners in average age changed in 1999 due to the death of Harvey. The number of years of service has remained about the same. The average monthly benefit increased 10% due to the above mentioned changes plus there are 2 pensioners that received significant increases due to the new minimum of \$600/month (Glenn and Slade).
- 12) The only change in 1999 affecting regular service pensioners is one new pension was awarded (Jackson), increasing the number of service pensioners to 29. The number of regular pensions since 1987 has increased from 7. It appears that firefighters are retiring at an earlier age but with about the same number of years of service. There is an additional new deferred pension awarded (Welch), since he has not reached age 50. The average monthly benefit increased 7.3%
- 13) The only change in 1999 in dependents pensions is the death of one dependent (Flessner). The average monthly benefit increased significantly since there are 4 dependents that received increases due to new \$600/month minimum. There is one child dependent (Johnson).
- 14) An examination of the number and make up of current firefighters provides insight into certain trends and changes affecting previous and future pension costs:

	#	Ave.	Ave. Yr.	Ave.
	<u>F.F.</u>	<u>Age</u>	<u>Service</u>	<u>Salary</u>
1999	47	42.1	11.1	43,846
1998	47	39.9	10.0	38,412
1997	40	38.3	11.0	33,911
1996	40	37.3	10.1	34,928
1992	41	41.6	14.6	32,213
1988	42	42.2	17.4	28,435

15) The three new firefighters admitted into the fund to replace the 3 pensions awarded in 1999 did not significantly change the makeup of the current workforce. Since 1988, the workforce has remained about the same average age but become significantly younger in years of service. Average salaries of firefighters increased 14% due to unusual salary increases and significant promotions from U/I positions. Since 1992 salaries have increased an annual average of 5.1% and since 1988 4.9%.

Board of Trustees City of Urbana, Illinois Firemen's Pension Fund Urbana, Illinois

Independent Auditor's Report

We have audited the accompanying financial statements of City of Urbana, Illinois Firemen's Pension Fund, a trust and agency fund of the City of Urbana, as of and for the years ended June 30, 1998 and 1999, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described more fully in Note 1, the financial statements present only one trust and agency fund of the City of Urbana and are not intended to present fairly the financial position and results of operations of the City in conformity with generally accepted accounting principles.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the plan net assets of the City of Urbana, Illinois Firemen's Pension Fund, a trust and agency fund of the City of Urbana, as of June 30, 1998 and 1999, and the changes in plan net assets for the years then ended in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the financial statements referred to in the first paragraph taken as a whole. The required supplementary information listed in the table of contents has been subjected to the auditing procedures applied in the audits of the financial statements and, in our opinion, is presented fairly, in all material respects, in relation to the financial statements taken as a whole.

Notes to Financial Statements June 30, 1999 and 1998

Note 1 - Summary of Significant Accounting Policies:

The Pension fund was organized on April 4, 1927, and is exempt from federal income tax. The pension fund is created and operated under state laws that provide for a fund to be established to provide certain retirement benefits to firefighters and their dependents (see Note 2). The fund is managed by a board of seven trustees made up of three city officials and four persons elected by the members of the board. The Pension fund is also included in the annual report of the City of Urbana, as a trust and agency fund, according to the criteria specified in governmental accounting standards.

Investments are reported at fair value. Fair values for U.S. government securities, insurance contracts, stock mutual funds and money funds are based upon latest quoted prices. Investment transactions are reported as of the trade date. Interest income is recognized as earned. Realized gains and losses on sales and exchanges of securities and unrealized gains and losses are reported as net appreciation (depreciation) in the fair value of investments.

The fund considers all liquid investments with a maturity of three months or less when purchased to be cash equivalents. At June 30, 1999 and 1998, there were no investments that were considered cash equivalents.

Property taxes are recognized for the year levied. The 1998 levy is reported in fiscal year 1999 and the 1997 levy in fiscal year 1998. The taxes are certified against appraised real property as of the beginning of the previous calendar year.

The preparation of financial statements requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from plan net assets during the reporting period. Actual results could differ from those estimates.

Note 2 - Pension Disclosure Information:

a. Plan Description:

The Pension fund is a defined benefit single-employer pension plan that covers all sworn firefighting personnel. Although this is a single-

Notes to Financial Statements June 30, 1999 and 1998

employer plan, the defined benefits and Illinois State Statues govern employee and employer contribution levels. This fund is accounted for and reported as a pension trust fund. The City's payroll for employees covered by the pension plan for the year ended June 30, 1999, was \$2,302,210 out of a total payroll of \$8,991,628.

At June 30, 1999 and 1998, the pension plan membership consisted of:

	<u>1999</u>	<u>1998</u>
Retirees and beneficiaries currently receiving benefits	46	46
Terminated plan members entitled to but not yet receiving benefits	. 1	0
Active vested plan members	15	16
Active non vested plan members	<u>32</u>	<u>31</u>
Total	<u>94</u>	<u>93</u>
Number of participating employers	1	1

Following is a summary of the firemen's pension plan as provided for in the Illinois Statutes.

The firemen's pension plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held at the date of retirement. The pension shall be increased by one-twelfth of 2½ % of such salary for each month over 20 years of service through 30 years of service, and one-twelfth of 1% of such service for each additional month between 30 and 35 years of service, to a maximum of 75% of such monthly salary. Employees with at least 10 years, but less than 20 years of credited service, may retire at or after age 60 and receive a reduced benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977, shall be increased annually, following the first anniversary date of retirement, and paid upon

Notes to Financial Statements June 30, 1999 and 1998

reaching at least the age 55, by .25% of the original pension times the number of months the employee has been retired since age 50 (up to a maximum of 15%), and 3% annually thereafter of the pension payable at the time of the increase.

Covered employees are required to contribute 8.455% of their salary to the Firemen's Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City of Urbana is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. By the year 2033, the City's Contributions must occur cate to the paint where the sast Plan Asset Matters: service cast for the Plan is fully

b. Plan Asset Matters:

The fund has the following investments that are greater than 5% of net assets and held by a single organization:

Investments in U.S. Government and U.S. Government guaranteed obligations total 65% of net assets.

An investment in the Vanguard 500 Index Mutual Fund is 7% of net assets.

There are no investments that are securities or obligations of the City of Urbana.

Funding Policy and Annual Pension Cost:

The amount shown below as the "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of the system on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The

This was or aprilate or the police of the

Notes to Financial Statements June 30, 1999 and 1998

measure is accrued liability and is a component of the funding method used to determine contributions to the system.

The funding policy provides for actuarially determined periodic contributions at rates that, for individual employees, accumulate assets gradually over time so that sufficient assets will be available to pay benefits when due. The rate for the City's employee group as a whole has tended to remain level as a percentage of annual covered payroll. The contribution rate for normal cost is determined using the entry age normal actuarial funding method. The system used a level percentage amount method to amortize the unfunded liability over a 36 year period. The significant actuarial assumptions used to compute the actuarially determined contribution requirements are the same as those used to compute the pension benefit obligation.

There were no changes in any actuarial assumptions that would significantly effect the pension benefit obligation or the required contribution.

Note 3 - Deposits and Investments:

The pension fund is limited by State Statutes and fund investment policy to invest only in obligations of the U.S. Treasury and its agencies, non-negotiable certificates of deposit and Illinois Public Treasurer's Investment Pool, savings accounts, general and separate accounts of approved life insurance companies (up to a maximum of 10% of the fund's net present assets), mutual funds (up to a maximum of 35% of the fund's net present assets) and money market mutual funds which are backed by U.S. government securities and agencies.

The fund's deposits and investments are categorized below to give an indication of the level of risk assumed at June 30, 1999.

Category 1 - includes amount that are insured and for which the fund or its agent in the fund's name holds the securities. These are U.S. government and its agencies obligations, certificates of deposit, and insured banks and savings accounts. Certificates of deposit in federally insured banks and savings and loans are insured in an amount equal to \$100,000 per fund plus an amount equal to each member's vested beneficial interest up to a maximum of \$100,000 per member.
