September 12, 2000

TO: Members, Urbana Policemen's Pension Fund

FROM: Ronald Eldridge, Treasurer R

Attached please find the annual financial report and audit for the Policemen's Pension Fund for the fiscal year ended June 30, 2000. Some important points of the audit are:

- 1) The financial statements have been prepared in accordance with generally accepted accounting principles ("clean opinion"). The auditor's opinion letter on this finding is on page 1.
- 2) In performing their work, the auditors did not discover any significant weaknesses in the fund's internal accounting controls. It is the policy of the auditor that no separate letter is issued in this circumstance.
- 3) Net assets of the fund have grown to \$14,633,920, up \$1,136,961 from last year. This growth is approximately the same as in 1999.
- 4) The city's contribution was based upon an actuarial study performed by the actuarial firm of Tim Sharpe. The amount required to be contributed was \$954,569. The amount actually contributed was \$953,431. Recall that the City has increased it's contribution from approximately \$350,000 in 1996. On page 10 is a detailed schedule of contributions made by the city. Note that over the last 3 years, the city is still ahead in contributions made by about \$21,600. The fund is at a 66% funding level. Three years ago, this funding level was 62%.
- 5) A review of the makeup of the investment portfolio shows that since 1990, the fund has significantly shifted investments in certificates of deposit to equities. The investment in common stocks was first authorized in January 1998:

	Percent of Portfolio					
	00	99	<u>98</u>	<u>97</u>	<u>96</u>	<u>90</u>
U.S. Government	52	49	66	76	84	52
Cert. Of Deposit	0	0	3	4	3	31
Insurance Annuities	7	4	10	14	10	0
Common Stocks	36	36	15	0	0	0
Savings/Money Market	5	11	6	6	3	17

6) The fund has instructed the fixed income managers to strive for average weighted length of maturity of approximately 5-7 years. Traditionally, the longer maturity period, the higher the

return. However, for the last 3-4 years, this differential return has been significantly smaller and leveled out at approximately 7 years.

7) A breakdown of the investment return by investment type follows (net of all fees):

		\$	0		
	_2000	1999	2000	1999	
Savings/Money Markets	40,744	52,968	4.7%	4.8%	
Cert. Of Deposit	0	9,685	n/a	6.0	
U.S. Government:					
Interest	397,515	406,417			
Gains (Loss) Sales	(116, 124)	76,855			
Unrealized Gain (Loss)	(31,429)	(335,349)			
Subtotal, U.S. Govt.	249,962	147,923	3.8	2.1	
Market Gains:					
Insurance Annuities	174,076	46,875	21.9	9.6	
Common Stocks	421,210	758,521	8.9	26.2	
Total	885,992	1,015,972	9.8	8.2	

8) A historical review of investment return shows that the fund has historically averaged approximately an 5-6% return before equities. The fund has been able to increase the total return to approximately 9% over the last 5-10 years by investing in equity securities (insurance annuities and common stocks beginning in 98):

	<u>2000</u>	<u>1999</u>	<u>1998</u>	Last <u>3 Yrs</u>	Last <u>5 Yrs</u>	Last <u>10 Yrs</u>
Return Before Equities	3.9%	2.6%	9.4%	5.1%	5.8%	6.2%
Total Return	9.8%	8.2%	14.4%	10.8%	9.8%	8.3%

9) The cost of benefit increases are expected to increase over time. Most members drawing benefits by law receive a 3% annually compounded increase in addition to increases in the number of retirees and the increased salaries at retirement that these benefits are based on. Benefit costs increased 4.3% in 2000 over 1999 and have averaged an annual 5.4% increase over the last 3 years and 8% over the last 10 years. An examination of the total amount paid out for benefits shows the following increases over last 3 years and 10 years ago.

	2000_	<u>1999</u>	<u>1998</u>	<u>1990</u>
Disability	\$272,525	\$271,269	\$274,995	\$101,493
Service	401,252	372,930	345,200	220,435
Dependent	145,116	141,012	136,308	51,403
Total	\$818,893	\$785,211	\$756,503	\$373,331

10) An examination of the number and make up of members receiving benefits provides insight into certain trends and changes affecting previous and future pension costs:

		Disability				Service		<u>Dep</u>	endent
		Ave. S	Serv.			Ave.	Serv.		Ave.
	<u>#</u>	<u>Age</u>	<u>Yrs</u>	:	<u>#</u>	<u>Age</u>	<u>Yrs</u>	<u>#</u>	<u>Age</u>
2000	11	51	18	1	6	64	25	9	71
1999	12	51	17	1	6	63	25	10	74
1998	12	50	17	1	5	63	23	10	73
1997	12	49	17	1	5	62	23	10	72
1996	11	48	16	1	5	61	23	10	70
1992	8	47	16	1	3	64	24	7	77
1988	5	48	18	1	2	64	24	6	77

- 11) The only change in 2000 affecting disability pensioners was the death of Irl Harbor. The number of disability pensions has increased significantly since 1988. The make up of the disability pensioners has not changed significantly since 1988.
- 12) There were no changes in the makeup of the regular pensioners in 2000. The number of regular pensions has increased from slightly since 1988. The makeup of average age and years of service has not changed much since 1988.
- 13) The only change in 2000 affecting dependent pensioners was the death of Ms. Clark. The number of surviving dependents has increased somewhat since 1988. The average age of the dependents is slightly younger.
- 14) An examination of the number and make up of current officers provides insight into certain trends and changes affecting previous and future pension costs:

	<u>#</u>	Ave. <u>Age</u>	Ave. Yr. <u>Service</u>	Ave. <u>Salary</u>
2000	45	35.5	8.5	43,593
1999	47	36.0	8.3	42,648
1998	46	35.7	8.3	40,639
1997	43	35.5	8.6	40,140
1996	46	35.1	8.3	38,233
1992	41	36.5	9.6	34,204
1988	42	34.7	9.5	29,309

- 15) During 2000, four officers resigned and four new officers were admitted into the pension fund. One officer resigned but is not eligible to obtain benefits yet and one officer is in the process of applying for a disability pension. Neither the age of the workforce or the average years of service has changed much since 1988.
- 16) Salaries for pension fund purposes increased an average of 2.2% in 2000. Since 1988 salaries have increased an annual average of 3.4%.

Board of Trustees City of Urbana, Illinois Police Pension Fund Urbana, Illinois

Independent Auditor's Report

We have audited the accompanying financial statements of City of Urbana, Illinois Police Pension Fund, a trust and agency fund of the City of Urbana, as of and for the years ended June 30, 1999 and 2000, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described more fully in Note 1, the financial statements present only one trust and agency fund of the City of Urbana and are not intended to present fairly the financial position and results of operations of the City in conformity with generally accepted accounting principles.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the plan net assets of the City of Urbana, Illinois Police Pension Fund, a trust and agency fund of the City of Urbana, as of June 30, 1999 and 2000, and the changes in plan net assets for the years then ended in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the financial statements referred to in the first paragraph taken as a whole. The required supplementary information listed in the table of contents has been subjected to the auditing procedures applied in the audits of the financial statements and, in our opinion, is presented fairly, in all material respects, in relation to the financial statements taken as a whole.

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements June 30, 2000 and 1999

Note 1 - Summary of Significant Accounting Policies:

The Pension fund was organized on April 4, 1927, and is exempt from federal income tax. The pension fund is created and operated under state laws that provide for a fund to be established to provide certain retirement benefits to police officers and their dependents (see Note 2). The fund is managed by a board of five trustees made up of two persons appointed by the mayor of the City of Urbana and three persons elected by the members of the fund. The Pension fund is also included in the annual report of the City of Urbana, as a trust and agency fund, according to the criteria specified in governmental accounting standards.

Investments are reported at fair value. Fair values for U.S. government securities, common stocks and money funds are based upon latest quoted prices. Investment transactions are reported as of the trade date. Interest income is recognized as earned. Realized gains and losses on sales and exchanges of securities and unrealized gains and losses are reported as net appreciation (depreciation) in the fair value of investments.

The fund considers all liquid investments with a maturity of three months or less when purchased to be cash equivalents. At June 30, 2000 and 1999, there were no investments considered to be cash equivalents.

Property taxes are recognized for the year levied. The 1999 levy is reported in fiscal year 2000 and the 1998 levy in fiscal year 1999. The taxes are certified against appraised real property as of the beginning of the previous calendar year.

The preparation of financial statements requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from plan net assets during the reporting period. Actual results could differ from those estimates.

Note 2 - Pension Disclosure Information:

a. Plan Description:

The Pension fund is a defined benefit single-employer pension plan that covers all sworn police personnel. Although this is a single-

Notes to Financial Statements June 30, 2000 and 1999

employer plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statues. This fund is accounted for and reported as a pension trust fund. At June 30, 2000 and 1999, the pension fund membership consisted of:

	2000	<u>1999</u>
Retirees and beneficiaries currently receiving benefits	38	38
Terminated plan members entitled to but not yet receiving benefits	2	0
Active vested plan members	18	24
Active non vested plan members	<u>27</u>	<u>24</u>
Total	<u>85</u>	<u>86</u>
Number of participating employers	1	1

Following is a summary of the police pension plan as provided for in the Illinois Statutes.

The police pension plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held on the last day of service. The pension shall be increased by 2% of such salary for each additional year of service over 20 years up to 30 years, and 1% of such salary for each additional year of service over 30 years of service, to a maximum of 75% of such salary. Employees with at least 8 years, but less than 20 years of credited service, may retire at or after age 60 and receive a reduced benefit.

The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977, shall be increased annually, following the first anniversary date of retirement, and be paid upon reaching the age of at least 55 years, by 3% of the original pension times the number of whole years the employee has been retired since age 50 (up to a maximum of 15%), and 3% annually thereafter of the pension payable at the time of the increase.

Notes to Financial Statements June 30, 2000 and 1999

Covered employees are required to contribute 9% of their base salary to the Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City of Urbana is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. By the year 2033, the City's contributions must accumulate to the point where the past service cost for the Plan is fully funded.

b. Plan Asset Matters:

The fund has the following investments that are greater than 5% of net assets and held by a single organization:

- 1. Investments in U.S. Government and U.S. Government guaranteed obligations total 50% of net assets.
- 2. An investment in the Lincoln Life Insurance Company totals 7% of net assets.

There are no investments that are securities or obligations of the City of Urbana.

c. Funding Policy and Annual Pension Cost:

The amount shown below as the "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of the system on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the accrued liability and is a component of the funding method used to determine contributions to the system.

The funding policy provides for actuarially determined periodic contributions at rates that, for individual employees, accumulate assets gradually over time so that sufficient assets will be available to

Notes to Financial Statements June 30, 2000 and 1999

pay benefits when due. The contribution rate for normal cost is determined using the entry age normal actuarial funding method. The system used a level percent amount method to amortize the unfunded liability over a 34-year period. The significant actuarial assumptions used to compute the actuarially determined contribution requirements are the same as those used to compute the pension benefit obligation:

Latest Actuarial Valuation Date	June 30, 1999
Asset Valuation Method	5 Year Average Market Value
Significant Actuarial Assumptions: Rate of return on investment of present and future assets	7.0% compounded annually
Projected salary increases	5.25% compounded annually
Post retirement benefit increases	3.0% interest annually
Mortality	1983 Group Annuity Mortality Table
Withdrawal	Graduated Rates
Disability	Graduated Rates
Retirement	Graduated Rates (100% by age 69)
Marital Status	85% married, spouse same age
Plan Expenses	None
Annual Required Contribution	\$ 954,569
Interest on Net Pension Obligation	0
Adjustment to Annual Required Contribu	<u>0</u>
Annual Pension Cost	954,569

953,431

\$ (21,645)

1,138 (22,783)

There were no changes in any actuarial assumptions that would significantly effect the pension benefit obligation or the required contribution.

Increase (decrease) in Net Pension Obligation

Net Pension Obligation Beginning of Year

Net Pension Obligation End of Year

Contributions Made

Notes to Financial Statements June 30, 2000 and 1999

Note 3 - Deposits and Investments:

The pension fund is authorized by State Statutes and fund policy to invest in obligations of the U.S. Treasury and its agencies, non-negotiable certificates of deposit and Illinois Public Treasurer's Investment Pool, savings accounts, general and separate accounts of approved life insurance companies (up to a maximum of 10% of the fund's net present assets), money market mutual funds which are backed by U.S. government securities and agencies, and common stocks (up to a maximum of 35% net present assets).

The fund's deposits and investments are categorized below to give an indication of the level of risk assumed at June 30, 2000.

Category 1 - includes amount that are insured and for which the fund or its agent in the fund's name holds the securities. These are U.S. government and its agencies obligations, certificates of deposit, and checking and savings accounts. Certificates of deposit in federally insured banks and savings and loans are insured in an amount equal to \$100,000 per fund plus an amount equal to each member's vested beneficial interest up to a maximum of \$100,000 per member.

	Risk	Amortized	Fair
_	Category	Cost	Value
Checking and Savings Accounts	1	\$ 445,698	\$ 445,698
U.S. Government and Its Agencies	1	7,616,412	7,281,351
Subtotal, Category	1	8,062,110	7,727,049
Insurance Company Accounts	-	556,230	1,009,514
Money Market Accounts	-	188,338	188,338
Common Stocks	-	<u>3,579,086</u>	<u>5,131,955</u>
Total		<u>\$12,385,764</u>	<u>\$14,056,856</u>

No credit risk is assigned to insurance company accounts, common stocks and money market accounts since the Fund does not own any specific identifiable securities. These amounts are not incurred nor guaranteed by any federal agency.
