## City of Urbana, Illinois <br> Department of Public Works

## OpERATIONS DIVISION

## Memorandum

## TO: Mayor Laurel Lunt Prussing and Members of the City Council

FROM: William R. Gray, Public Works Director John Collins, Operations Manager

DATE: May 7, 2015

## RE: 2014/2015 Winter Summary

It was somewhat refreshing to have an "average" winter. This year's winter season in all respects was an average winter, which included a few record high and low temperatures along with two icing events and minimal blowing snow.

This year's winter season started with the first snow fall on November $13^{\text {th }}$ and ended with the last measurable snow fall on March $28^{\text {th }}$. During this time the Operations Division responded to 12 separate snow or ice related events. The Illinois State Water Survey recorded 26.1inches of snow this winter; an average winter snow fall is around 24 inches. Also during this time, Urbana experienced 65 days of precipitation, record low temperatures on November $21^{\text {st }}$ and February $23^{\text {rd }}-24^{\text {th }}$, record high temperature on November $30^{\text {th }}$, and 8.3 inches of snow on March $1^{\text {st }}$.

The total cost for addressing this year's winter season events was $\$ \mathbf{3 6 7 , 6 1 7}$. Listed below is a breakdown of expenses for this year's winter season.

| Salt* | $\$ 76,134$ |
| :--- | ---: |
| Salt Brine | 940 |
| Calcium Chloride | 3,001 |
| Ice Melt** | 2,610 |
| Employee Hours/Cost | 62,736 |
| Employee O/T Hours/Cost | 88,748 |
| Equipment Cost | 118,098 |
| Contractual Cost | 15,530 |
| Total Cost | $\$ 367,617$ |

Salt* This cost includes salt used by the Mass Transit District, the Urbana School District, and the Urbana Champaign Sanitary District.

Ice Melt** This is treated salt for use at the Parking Deck and on the brick sidewalks at the City Building.

Miscellaneous notes from this past winter season:

## Materials consumed

1,263 tons of salt
3,750 gallons of salt brine
4,194 gallons of calcium chloride
4,555 lbs. of Ice Melt**

## Employee and equipment hours

1,908 employee hours worked (397 hours on sidewalks)
2,519 employee overtime hours worked (52 hours on sidewalks)
3,310 equipment hours ( 320 hours on sidewalks)

## Materials carried over for next season

436 tons of salt
1,700 gallons of calcium chloride
The City’s Sidewalk Snow Removal Ordinance was enacted five times throughout the season. The overall response and coverage from the affected business areas was very good in the Central Business District however, Public Works did need to respond a few times to the South Philo Road Business District.

The Operations Division will continue working to reduce the cost of the City's winter operations, however it has been and will continue to be accomplished in small steps. Taking this approach will ensure that gaps in coverage are minimized to protect the safety of Urbana's citizens, motorists, pedestrians, and the biking community.

This year the Operations Division trained six new employees for snow removal and they all did a great job. Once again, everyone came together as a team to complete another successful winter season.

Attached is a spreadsheet of the past winter material, equipment, contractual and labor costs for comparison.

For any question regarding this matter please feel free to contact this office.
